“ *Copper has been with me since 2004. She was an abandoned kitten too young to be away from her momma. A police officer found her when she was cornered by 2 dogs. He saved her and named her. I was working as a paramedic and did a call for someone they arrested. The patient refused but I ended up coming home that day with her sweet Copper. I quickly noticed the heart on the top of her head. She melted my heart. Since then she has been with me. We added her friend Stormy to the mix in 2006. We met Mike and the kids, had Abbey and brought our sweet Bella (dog) to our home. Mike and I were married and we had Niko. and she was there with me/us through so much life. She was a companion. She was loved by all of us. She was skilled at jumping and she loved to leap. She has been there through so many of life's ups and downs for our family but she was a constant and she loved us and we loved her. There is a piece of our family missing, but I know she is always with us in our hearts.*
