“ Eddie Bubblz was my BFF. He was the cutest, chirp-iest, adorable cat I've ever known. He always made me smile and want to just cuddle the beejeepers out of him! I do believe that Eddie invented the notion of 'being social'.

*I'm glad to have known him, loved him and will miss him terribly. I feel so badly for Peter + Kristin and hope that the memories they made with Eddie will help console them going forward.*

“ Though I never actually met Eddie, I heard wonderful stories about him and I know he made his family very, very happy. Isn't that what we're all here to do?

“ Eddie was such a good soul. He used to empty my purse for me if I left it on the floor, and was endlessly entertaining catching treats thrown in the air. Our world is less for his loss.
