JM

“ Mommy misses you everyday sweet boy! My sweet little angel buddy that brought me so much joy when mommy was so down! You put that frown upside down. I miss your sweet fuzzy little kisses warm snug little tiny cuddles, how you filled your cheeks with treats and begged mommy for more. How you greeted me several times a day chewing on the bars of your cage. When you ran around in your ball and on the couch and beds. How you had to smell everything, how you squeaked you brought your cat brother and I so much joy and we were so blessed that God chose us to be your family! We miss you everyday My tiny little angel Up above on the rainbow bridge nobody will ever replace you! I forever have a whole in my heart and emptiness in the house without you! Take care until we meet again sweet baby! The pain of losing you only grows my angel. I love you with all my heart!!!
